DD-P&R(A)2125

Overseas Living Pattern Survey (LPS) For Uniformed Services  
Cost-of-Living Allowances (COLA)  
U. S. Department of Defense

#### Purpose of the survey

The Cost-of-Living Allowance (COLA) is paid to Service members stationed in high cost overseas locations. COLA helps to maintain purchasing power so members can purchase about the same level of goods and services overseas as in the United States. This survey is designed to identify where and how you purchase goods and services. The information obtained from this survey is used in planning and completing a separate Retail Price Report that forms the basis for prescribing your COLA. You will not need to report on overall costs in this survey as the costs will be reviewed in the Retail Price Report.

#### Time to complete

Please take about 30 minutes to complete this survey. Please answer all of the questions. If typical shopping locations are not listed for a category, select one or both "Other" options and enter the shopping location(s) in the boxes below. All of the requested information is necessary to compute a cost-of-living index for your location.

#### Who should report?

You should complete this form if you are a Service member who is assigned to and has lived at this location for 3 months or more and do not live in barracks, dormitory or aboard ship. Other survey takers will not have their information gathered as their experience will not reflect the shopping habits of the typical military personnel at the duty station.
